

# Corrections Policy

更正政策

## ICIS China Assessment Corrections Policy ICIS 中国估价更正政策

### 1. Overview 概述

(a) ICIS China is committed to maintaining the highest standards of accuracy in its released content. When an error is detected, it will be promptly and transparently corrected and subscribers will be informed, subject to the policies for certain circumstances and individual content as outlined below. ICIS 中国是致力于维护其发布内容的准确性最高标准。当被检测到错误时，它将被及时和透明地更正，并通知用户，根据下面所述的相关情况和个别内容的政策。

(b) Timeliness: If a correction is required for any reason ICIS China will ensure this is communicated in line with this policy as soon as possible.

时效性：如果因为某种原因必须更正，ICIS 中国将确保更正按照这一政策尽快发出通知。

(c) ICIS China welcomes any information about possible errors. Please use the contact details on the analysis or article, or email Customer Support on [cc-support@icis.com](mailto:cc-support@icis.com).

ICIS 中国欢迎关于可能错误的任何信息。请使用分析内容或文章上的联系信息，或者发邮件至 [cc-support@icis.com](mailto:cc-support@icis.com)。

(d) ICIS China may in some cases decide to decline in whole or part to issue a correction in a given circumstance, for example if conflicting or unconfirmed information is involved. Such decisions can be appealed by following the procedures in the Complaints Policy.

ICIS 中国在某些情况下会决定全部或部分拒绝发布一个更正，例如，如涉及冲突或是未经证实的信息。对这些决定可以通过以下的投诉政策的程序提出上诉。

(e) It is impossible for a corrections policy to anticipate every possible situation and set of facts that may arise. ICIS China therefore reserves the right of its senior managers to use judgement in the application or non-application of this policy, with the best interests of its subscribers in mind.

更正政策不可能预料到每一种可能出现的情况和一系列事实。因此，ICIS 中国保留其高级管理人员使用判断的权力来决定本政策是否适用，并考虑到用户的最佳利益。

(f) In any such situation, in accordance with the ICIS China Conflict of Interest Policy, no commercial or other non-assessment considerations will be taken into account, and they will not influence the final decision.

在这样的情况下，按照 ICIS 中国利益冲突原则，任何商业或其他非评估的评估因素都不会被考虑，也不会影响最终决定。

### 2. Price assessments 价格评估

(a) ICIS China will correct an assessment if a price is determined to have been released in error and was not the price that was - or should have been - the price that ICIS China intended to release. Examples might be a typographical mistake in a figure, or a mistake in a calculation applied to market information that generated an erroneous figure.

如果价格被确定为错误发布，并且不是 ICIS 中国打算发布或应该发布的价格，ICIS 中国将纠正价格评估。例如数字中的印刷错误，或对市场信息运用了错误的计算方法而产生了一个错误的数字。

(b) Market participants have to be able to use prices and price histories with certainty, so a time limit must be applied to how far back ICIS China can retroactively correct an assessment. The time limit on

corrections will be a maximum of 3 months. The policies on time limits for individual areas of ICIS China coverage are outlined in section 7 below.

市场参与者必须能够很确定的使用价格和历史价格，所以对于 ICIS 中国所能追溯回的正确的评估是有时间限制的。更正的时间限制为最多 3 个月。对 ICIS 中国覆盖个别地区时间限制的政策概述见以下第 7 节。

(c) A situation may arise in which a price assessment - or the delta between price assessments - from earlier than the retroactive time limit is found to have been released in one format that is in conflict with a price released in another format, due to either technical or human error. In such cases ICIS may choose to reconcile the conflict by adjusting its price histories, and - if warranted - it may add a note to the database to explain what has happened (see also sections 7. (a) (iii) and 7. (b) (iii) below).

一种可能出现的情况是由于技术上或人为的错误，更正期限之前的一个价格或是差价的发布形式与另一个价格的发布形式有冲突。在这种情况下，ICIS 中国可以选择通过调整其历史价格从而调和冲突，如果必要可以在数据库添加注释来解释发生了什么（参见以下第 7 节。（a）(iii)和 7. (b) (iii)）。

(d) Assessments are made based on the best information available at the time of the assessment, and subject to the time limits specified in ICIS China methodology. Information received after the assessment deadline, or information from sources that is subsequently amended, elaborated on, or corrected by the sources after the deadline, will not be used to correct assessments.

评估是基于评估时可获得的最佳信息，并遵守 ICIS 中国方法中规定的时间限制。在评估截止日期后收到的资料，或信息来源在截止日期后修正、阐述或纠正的信息，将不会被用来纠正评估。

(e) Price assessments can use information from market sources that may be partial or include a degree of subjectivity. Analysis decisions about assessments also include the weighing of competing or sometimes conflicting information and opinion. The methodology will usually set out how this is handled. The interpretation of how the methodology should be applied (see also the section 4 on Methodology below) in a particular circumstance will be considered a matter of judgement and will be reported in line with our Assessment Standards. Any honest disagreement by a subscriber with the information used or the judgement applied to it, or with the interpretation of the methodology, will generally not constitute evidence that a mistake has been made, and no correction would be issued based on the mere disagreement that has been expressed.

价格评估可以使用来自市场的资源，该类资源可能是局部的或包含一定的主观性。关于评估的分析决策还包括相互竞争或相互冲突的信息和意见的权衡。方法论通常应设置如何处理这种情况。如何将方法应用（见一下发方法论的第 4 节）于特定情况下的解释，将被视为一个分析师判断的问题，并将与我们的价格评估标准一致。对于信息的使用或判断或方法论的解释，客户任何客观的异议将一般不构成错误已形成的证据，ICIS 中国不会仅基于其异议而发布更正。

(f) From time to time, developments in particularly opaque markets mean that ICIS China needs to re-calibrate a price series through a process known as a non-market adjustment. These non-market adjustments are not corrections but are part of the price reporting process as described in the methodology and there will therefore be no retroactive correction of price history to apply the adjustment. A note will be added to the price history to explain the step-change in the price series.

随着不透明市场的演变，ICIS 中国需要通过一个非市场的价格调整流程，重新校准个别的价格点。这些非市场调整不是更正，而是方法中所述的价格报告过程的一部分，因此不会追溯修正价格历史以适用调整。在价格历史中会增加一个说明，解释受调整的相关价格点。

### 3. Errors of fact 事实错误

(a) ICIS China will issue a correction if a fact released in the text of any article or commentary can be determined to be erroneous, unless the incorrect content is too old or insignificant in the context of the article or commentary to suggest that a correction would not be in the interests of subscribers.

如果任何文章或分析评论文本事实可以认定是错误的，ICIS 中国将发布更正。除非错误的内容过于陈旧，或者在文章或评论的背景下无关紧要，以至于更正不符合客户的利益。

(b) ICIS China may amend released text - without issuing a correction - to fix typographical or grammatical errors or to insert missing words, but only if the amendment does not significantly alter the meaning or the reader's understanding of the item.

ICIS 中国可以修改已经发布的文字-在没有发出一个更正声明前提下-以修正错别字或语法错误或插入缺少的单词，但这样的修改不能显著改变原项目意义和读者对此的理解。

(c) In the case of mis-spelled or mis-identified names of places, people and/or their titles, companies or other entities, or scientific or technical nomenclature, ICIS China will generally issue a correction. If there are multiple spellings or identifiers for names or titles, particularly for translated names and words, ICIS China may choose to amend the text without issuing a correction. In such cases, a note may be added to the item to make a note of the change if deemed appropriate. If the use of one version over another does not meaningfully alter the reader's understanding of the content, and the text simply lacks specificity about the person, place or thing, then a correction would generally not be issued.

如果地名、人名和/或其头衔、公司或其他实体、或科学或技术名词的拼写错误或识别错误，ICIS 中国一般会发布更正。如果名字或头衔有多种拼法或标识，特别是翻译的名字和单词，ICIS 中国可能会选择修改文本而不发布更正。在这种情况下，如果认为合适的话，可以在项目中增加一个注释，以说明这一变化。如果使用另一个版本并不会改变读者理解的意义，而只是文字缺乏关于人物、地点或事件的具体描述，那么一般不会发布更正。

(d) Sometimes text can be ambiguous, or offer multiple interpretations to the reader, without there being anything factually wrong. In such cases, ICIS China may rewrite, add to, or delete parts of the text to clarify the meaning. A note may be added to the item to highlight and explain the change, but no correction will be issued.

有时，文字可以是模糊的，或给读者提供多种解释，这并没有什么错误。在这种情况下，ICIS 中国可能改写、添加、删除部分的文字来明确意思。可能会添加一个注释以突出和解释文字的变更，但无需发布更正。

(e) ICIS China by policy does not report rumours or speculation in their own right. But articles and commentaries may need to refer to rumours or speculation, or some other form of information that has not been confirmed, to explain market behaviour or a change in sentiment. In the event such information is subsequently shown to be false, ICIS China will not correct the item so long as the text had made the nature of the information clear, and so long as there was a genuine link to market behaviour or a change in sentiment. ICIS China may subsequently release an article or commentary that alerts readers to the later view of the unconfirmed information.

ICIS 中国的政策是在其权益下不报告谣言或猜测。但文章和分析评论可能需要提及谣言或猜测，或一些其他形式未经证实的信息，去解释市场行为或情绪变化。在此种情况下该信息随后被证明是错误的，ICIS 中国将不会对此信息进行更正，只要文本已明确信息的性质，并且只要该信息与市场行为或情绪的变化有真正的联系。ICIS 中国可以随后发布一篇文章或评论，提醒读者注意后来对未证实信息的看法。

(f) Likewise, if there is conflicting information from multiple sources, ICIS China will make its best efforts - within the confines of confidentiality - to let the reader know where the information came from and what efforts had been made to reconcile the conflict, with the aim of allowing readers to make their own judgements. If one set of information is subsequently shown to be false, ICIS China will not issue a correction so long as the text had made the contradiction clear. ICIS China may subsequently release an article or commentary that alerts readers to the later view of the contradictory information.

同样的，如果有多个来源的信息相互矛盾，ICIS 中国将尽最大努力，在保密的范围内，让读者了解信息的来源和解决冲突所作的努力，目的是让读者作出自己的判断。如果一系列信息随后被证明是错误的，只要文

本已经明确了矛盾，ICIS 中国就不会发布更正。ICIS 中国随后可能会发布一篇文章或评论，提醒读者注意后来对矛盾信息的看法。

#### **4. Errors of Methodology Application 方法论运用错误**

(a) ICIS China methodology is proprietary and reflects the assessment view of how best to use market information in the price assessment process to produce a robust assessment or index. The ICIS China view is shaped by, and reflects, input from market participants through its Methodology Consultation Process. If that view changes based on access to new information, a change in the prioritisation of information, or a change in market structure, the methodology will be updated after appropriate research and consultation with market participants. Such updates would not represent a correction and there would be no retroactive application of the change to previously released price assessments.

ICIS 中国方法论是专有的，反映了在价格评估过程中如何最好地利用市场信息来产生一个强大的评估或指数的评估观点。ICIS 中国的观点是通过和市场参与者沟通而形成的，并反映了他们的意见。如果这一观点因获得新的信息、信息优先级的变化或市场结构的变化而改变，那么在进行适当的研究并与市场参与者协商后，将对方法论进行更新。这种更新不代表一种更正，也不会对以前发布的价格评估进行追溯性修改。

(b) Despite controls and management structures designed to limit the risk of human error it is still possible that an identifiable error in the interpretation or application of the methodology could still occur. For example, transaction data may be erroneously included or excluded because of a misunderstanding of the transaction parameters (such as volume, timing or grade) specified in the methodology. In such situations, a correction would be issued, so long as the error is clearly identifiable and the error can be shown to have made a sufficiently significant difference to the released assessment so that a correction is deemed to be warranted by information management.

尽管控制和管理结构旨在限制人为错误的风险，但在诠释或应用方法论时仍可能发生可识别的错误。例如，由于方法论中特定的交易参数（如数量，时间或等级）的误解，交易数据可能被错误地纳入或排除。在这种情况下，只要该错误是可以被清楚地识别并且可以被证明对于已发布的价格评估错误产生了足够大的影响，以至于信息管理部门认为有必要进行更正，就会发布更正。

(c) If a set of circumstances arises in which an interpretation of methodology was consciously applied to market information to arrive at a particular price assessment, ICIS China will stand by the assessment and decline to issue a correction, even if can be shown that reasonable alternative interpretations were available that would have produced a different assessment.

如果一个特定情况下，方法论的诠释被有意识地应用于市场信息以得出特定的价格评估，ICIS 中国会坚持评估并拒绝发布更正，即使可以证明有合理的替代解释可以产生不同的评估。

#### **5. Errors from Source 资源错误**

(a) ICIS China Assessment Standards Policy requires reasonable efforts to be made by its analysts to verify information received, particularly with regard to information about third parties. If such information is presented as fact rather than as unconfirmed information that is affecting market behaviour or sentiment, and it is subsequently shown to be erroneous, then a correction would be issued (see 3. (e) and 3. (f) above).

ICIS 中国评估标准政策要求其分析师做出合理的努力来核实收到的信息，特别是关于第三方的信息。如果这些信息是作为事实而不是作为影响市场行为或情绪的未经证实的信息呈现的，且随后被证明是错误的，那么需要发表更正（见以上 3（e）和（f））。

(b) If a source supplies first-hand information that contains a bona-fide error, ICIS China will usually issue a standard correction, but it may also make clear the origin of the mistake, if appropriate. If it is believed that a source may be altering information previously supplied simply because of a desire to present a

different set of facts or opinion, rather than needing to fix a genuine mistake, ICIS China would usually decline to issue a correction in favour of reporting the changed information in an updated or separate article, or in a subsequent analysis.

如果信息来源提供的第一手资料含有真正的错误，ICIS 中国通常会发布一个标准的更正，但也可能在适当的时候明确说明错误的来源。如果信息提供方改变先前提提供的资料只是因为想提出一套不同的事实或观点，而不是需要解决一个真正的错误，ICIS 中国通常会拒绝发布更正，而是在更新或单独的文章中或在随后的分析内容中发布变化信息。

## **6. Technical errors 技术错误**

(a) If a technical process in the production or delivery of ICIS China content introduces an error, ICIS China will issue a correction in line with the policies outlined above.

如果在信息内容的生产或发送过程中因技术问题而出现错误，ICIS 中国将根据上述政策发布更正。

(b) If some defect in technology or its use causes errors to temporarily or permanently appear in historical archives of articles, analysis commentaries, or price assessments, such errors may be removed without a correction being issued. For example, if an erroneous foreign-exchange rate or volume conversion factor is found to have been applied to archived assessments, or previously correct and complete article text or analysis commentary has been corrupted, fixes would be made without a correction being issued.

如果技术或其使用中的某些缺陷导致错误，暂时或永久性地出现在历史档案中的文章，分析评论或价格评估，这样的错误可能会被删除，而不会发布更正。例如，如果一个错误的汇率或体积转换因素被发现已被应用到归档的评估，或以前正确和完整的文章文本或分析评论已被损坏，将在不发布更正的情况下进行修正。

(c) If a historical price archive is found to be in error because of the influence of a wrong conversion factor being applied or because it draws upon another data series that itself had been in error, an analyst's judgement will be used to decide whether a fix is necessary and appropriate and whether a formal correction should be announced. Such a decision would be made with consideration of the time limits specified in 2. (b) above.

如果一个历史价格档案被发现是错误的，因为应用了一个错误的转换系数的影响，或因为它借鉴了另一个本身就有错误的数据库系列，需要分析师的判断来决定是否有必要和适当的修正以及是否应该宣布一个正式的更正。在作出这种决定时，将考虑到上文 2. (b) 中规定的时间限制。

## **7. Correction protocols for Individual Content 个别内容修正方案**

(a) ICIS China Energy (oil, natural gas, LNG, electricity)

ICIS 中国能源（石油，天然气，液化天然气，电力）

(i) Analyses: For erroneous price assessments, subscribers will be notified and a corrected analysis will be distributed with a note identifying the correction. A correction for price assessments generally would not be issued if three months have elapsed since release, although older price archives may still be amended without a correction being issued as outlined in section 7. (a) (iii) below. For other erroneous analysis content, information management will make a decision on whether to reissue a corrected analysis, taking into account the significance or otherwise of the error and how much time had elapsed, and weighing whether a formal correction would be in the best interests of subscribers. If appropriate, a correction note may be released in the next available edition without the original analysis itself being re-issued.

分析：对于错误的价格评估，用户将被通知并收到一份更正的分析包括一个关于已识别的错误的说明。该分析内容的下一个版本也会包含文本内的更正说明。自出版日三个月之后一般不发布更正的价格评估，尽管较早的价格档案仍可在不发出更正的情况下进行修正，如下文第 7 节 (a) (iii) 所述。其他错误报告的内

容，信息团队管理层将对是否补发更正报告作出决定，考虑到重要性或错误过了多长时间，并考虑正式修正是否符合用户的最佳利益。如果适当的话，可以在下一个版本中发布更正说明，而无需重新发布原始分析。

(ii) Online content: Incorrect articles will be replaced by versions that will be clearly labelled as corrections, including a note identifying what content was corrected. In the case of any online graphical representations of data, the underlying data archive may be corrected, or the technical process used to generate the graph would be repaired, but without any correction specifically issued for any graph that may have been generated by the wrong data or a flawed technical process.

线上内容：不正确的文章将被明确标记为更正的版本替换，包括一个指出什么内容被纠正的说明。就任何在线数据的图形表示而言，基础数据档案可能被纠正，或用于生成图形的技术过程将被修复，但对于任何可能由错误的数据或有缺陷的技术过程生成的图形，不专门发布更正。

(iii) Price archives: The principle about time limits outlined in 2. (b) above will generally be applied to leave price histories intact if enough time has elapsed to mean a correction is deemed to be not in the interests of subscribers, based on an analyst's judgement. But if there is a conflict between a price in a historical archive and a released analysis for the same time day or other time period, and it can be ascertained that the analysis is correct, the archive will be amended without a correction being issued.

价格存档：2（b）中概述了时间限制的原则。一般适用于保持历史价格的完整性，根据分析师判断，如因时间过了太久而更正已被认为是不利于用户的利益。但是，如果在历史档案中的价格与同一时间或其他时间段发布的分析内容有冲突，并且该报告是正确的，该档案将被修改，而不必进行更正。

#### (b) ICIS China pricing (refined products, chemicals, fertilizers)

ICIS 中国价格（提炼产品，化工，化肥）

(i) Analyses: Subscribers will be notified, and a corrected analysis will be released with a note identifying the correction, unless the error is deemed by information management to be so trivial or dated that a correction would not be in the interests of subscribers. As an alternative in such cases, a decision may be taken to include a note in the next edition of the analysis to point out the error.

报告：用户将收到通知和一份更正分析包括一个关于更正的说明，除非信息组管理层认为由于该错误微不足道或时间过了太久，更正反而不利于用户的利益。如果不发布更正，其错误会在下一期分析内容中提到。

(ii) Online content: The incorrect analysis or price alert will be replaced by a version that will be clearly labelled as a correction and will include a note identifying what content was corrected. In the case of online graphical representations of data, the underlying data may be corrected, or the technical process used to generate the graph may be repaired, but there would be no correction specifically issued for any graph that may have been incorrectly generated by the wrong data or flawed technical process.

线上内容：不正确的文章将被明确标记为更正的版本替换，包括一个指出什么内容被纠正的说明。就任何在线数据的图形表示而言，基础数据档案可能被纠正，或用于生成图形的技术过程将被修复，但对于任何可能由错误的数据或有缺陷的技术过程生成的图形，不专门发布更正。

(iii) Price archives: The principle about time limits outlined in 2. (b) above will generally be applied to leave original price histories intact if enough time has elapsed to mean a correction can be deemed to be not in the best interests of subscribers, based on the judgement of information management.

价格存档：2（b）中概述了时间限制的原则。一般适用于保持历史价格完整性，根据信息组管理层判断，如因时间过了太久而更正已被认为是不利于用户的利益。但是，如果在历史档案中的价格与同一时间或其他时间段发表的报告有冲突，并且该报告是正确的，该档案将被修改，而不必进行更正。

(iv) Analysis archives: If a mistake is found in an analysis released more than three months earlier, a decision will be made on whether to reissue a corrected analysis based on the principles outlined above. In many cases, it will be deemed appropriate to forego re-issuing the analysis.

分析内容存档：如果一个错误被发现在三个月前发布的一份分析中，应基于上述原则决定是否补发更正分析。在大多数情况下，不会重新发布分析。

#### (c) ICIS China Industry updates

##### ICIS 中国行业更新

(i) Corrections will be issued as soon as is practicable, by removing the incorrect article and issuing a new version that clearly identifies itself in the headline as a correction and includes a note explaining why a correction was needed. The note may also specify the wrong information if appropriate.

更正将在可行的情况下尽快发布，即删除不正确的文章并发布新的版本，在标题中明确指出自己是更正，并包括一个说明，解释为什么需要更正。如果合适的话，该说明还可以指明错误的信息。

(ii) It may not always be practical to replace some incorrect ICIS China industry updates content with a corrected version. For example, video or audio content and photographs included in some articles may require unreasonable or assuredly fruitless efforts to obtain correct versions. In such cases, the incorrect content would simply be removed from the article and a correction note would be included to explain the removal. In the case of such material being released on its own, the content would be removed and replaced with a correction note, insofar as it is possible to do so.

不正确的 ICIS 中国行业更新内容会被一个修正版本所替换，但某些情况下这样的替换不实用。例如：视频或音频内容和照片，包括一些文章可能需要不合理或无谓的努力才能获得修正的版本。在这种情况下，不正确的内容将被简单地从文章中删除，并包括一个更正说明解释清除。在这种情况下，如果这些材料被单独发布，在可能的情况下，这些内容就会被删除，并用更正说明代替。

(iii) On rare occasions, a released article may be found to have no real basis for existence, to the extent that it would be pointless to attempt to correct it. Likewise, information reported from a first-hand source may turn out to be so erroneous as to be beyond repair. In such cases, and in any similar circumstances, the article would be removed from the online archive story and a note would be published explaining that the story had been withdrawn, without any attempt being made to correct the information.

在极少数情况下，已发布的文章可能会发现没有真正的存在依据，以至于尝试纠正它将是毫无意义的。同样，从一手资料来源报告的信息可能被证明是错误的，以致于无法修复。在这种情况下以及任何类似情况下，该文章将从网络档案故事中删除，并发表说明，解释该文章已被撤回，而不试图纠正该信息。

#### (d) ICIS China Chemical Business ICIS 中国化工产业

(i) Printed editions: Any factual errors, including price references, contained in the printed copies of the magazine would be corrected via a note in the next available edition, subject to information management discretion of whether the age and/or significance of the error warranted a correction announcement.

印刷版：任何包含在发布内容中的事实错误，包括价格信息，都将通过在下一版本中的说明进行更正，需由信息管理部门酌情决定，根据错误的时效性和/或重要性来判断是否有必要发布更正。

(ii) Online content: Corrections will be handled in accordance with the protocols for ICIS China industry updates as detailed in 7. (c) above.

在线内容：将根据 ICIS 中国行业更新的规定详见 7（以上）处理更正。

## 8. Other content 其他内容

ICIS China publishes content in many other formats, including Custom releasing supplements; presentations, programmes, and other conference materials; white papers and other free content

downloads; social media messages; blogs; static product content on the [www.icis.com](http://www.icis.com) website; marketing content distributed by email; and communications.

ICIS 中国发布许多其他格式的内容，包括定制发布内容；针对市场趋势的演讲，方案和其他会议材料；白皮书和其他免费内容下载；社会媒体的消息；博客；在 [www.icis.com](http://www.icis.com) 网站静态内容的产品；以邮件和移动客户端分发的营销内容和沟通发布。

If errors are detected in such content and it is practical to inform the audience by whatever means are reasonably available, such steps will be undertaken in the general spirit of the protocols detailed above. However, in many cases this would not be practical, and ICIS China would simply replace the erroneous content without any mention of the previous incorrect content.

如果在这样的内容中检测到错误，并以任何合理的方式通知观众，这样的步骤将遵循上面所列出的修正方案。然而，在许多情况下，这是不实际的，ICIS 中国会直接以正确的内容取代错误的内容，但不会提及之前的不正确的内容。

## **1. Continual Improvement 持续改进**

a) The ICIS China corrections process will be conducted in line with the ICIS Data Standards Policy, Record Retention Policy and the Escalation Policy documents. As such records should be retained to allow the reasons for the correction to be investigated, understood, and reported to ICIS China management. It will also ensure that process improvements can be recognised and implemented.

a) ICIS 中国更正程序将与数据标准政策、记录保留政策和升级政策文件一并执行。记录应保留允许针对更正的原因并进行调查，了解和报告给 ICIS 中国管理层。它将确保流程的改进可以被认可和实施。

b) Where the corrections process identifies the need for a material change to the methodology this will be conducted through the ICIS China Methodology change process.

b) 如果更正过程中发现需要对方法论进行重大改变，这将通过 ICIS 中国方法论的改变流程进行。

## **2. Reporting Corrections 更正报告**

Reporting of corrections must be documented by the Editorial Quality Committee and reported to ICIS Benchmarking Europe B.V. as directed by ICIS Benchmarking Europe B.V.

更正报告必须由信息质量委员会记录在案，并按照 ICIS Benchmarking Europe B.V. 的指示向其报告。
